AMUSEMENTS.—To-night the Weathers-by-Goodwin combination will appear at the Opera House. The New York Tribune says: "'Hobbies tells how several young people wish to have private theatricals, how their idea is opposed by their elders, and how they ingeniously overcame this opposition. The author has made adroit allusion to many of the topics of the day which have a ridiculous side, and he man-ages to invest it all with an air of absurdi-ty. Miss Eliza Weathersby, who acts as a lady's mald, is bright, pretty, vivacious, ages to invest it all with an air of assuratty. Miss Eliza Weathersby, who acts as a

several songs prettilly. Mr. N. C. Goodwin, Jr., is a clever young actor, and has a
part of the richest comedy type. He was
good in his imitations of a number of
well-known actors. Besides this, he also
succeeded as a grotesque dancer. The
piece is prettilly put upon the stage, and
the music is pleasing.

LAW AND ORDER.—The following is the reply of the Rev. Schaffraneck to the Law and Order Committee asking his aid and co-operation in their proposed reforms:

WHEKLING, W. VA., Jan. 9, 1880.

Gentlemen-As a reply to your commu-nication I have to inform you of my non concurrence with your request for peti-tion similar to the one you submitted to me. I could not conscientiously lay be me. I could not conscientiously lay before my congregation for signatures nor
would my conscience permit my own signature being attached thereto. For
making such a statement I have good
reasons, which I give as follows:

1. It seems too arrogant for a disciple to
place himself over the Master whose
opinions in reference to the keeping of the
Sabbath day were liberal and openly expressed to the utter anguish of the Pharisees.

sees.

2. The kingdom of the Lord does not consist of the worldly statutes and rites.

3. Constraint brought upon people by religion has rather the appearance of injury instead of benefit to the church.

4. Such means are injurious to religious and political freedom of mankind.

5. Such attempts are, as experience

teaches us often are the cause of unnecessary expense to the people. One Council can pass them, and another is vested with the power to annul them.

7. Such encroachments on the rights of others will destroy the love that we ought to hear to one another.

POLICE COURT-Judge Cranmer.

Yesterday was a good day for the politi cians as well as the people who were in terested in matters more enduring. The re bland enough for a June day brought out the statesmen who mould our local politics, and did more to thaw out that dignified and mysterious reserve which is supposed to be an inseparable attachment of a first-class wire worker, derstandings heretofore existing could ac It is a long way yet to the fourth Thursday of October or the first Tuesday after the first Monday in November, but where worms are few and birds are numerou worms are few and birds are numerous it takes a mighty early rooster to get anything worth having, and this fact seems to be better understood among politicians in this neighborhood than any other fact in natural history. Hence at this time there is about as much work being done in a quiet way as there will be at any time before the meeting of the County, State and National Conventions and the selection of the rickets to be voted for

tion of the tickets to be voted for. PRESIDENTIAL TALK. There is considerable talk concerning Presidential candidates, but it has not that definite character which characterizes conversation about offices less remote and nore within the control of the talkers Judging from the expressions, which reached all the way round from Grant, Sherman, Blaine, Hayes, Garfield and Washburne, to Sam. Tilden, Bayard, Hancock and Charles Francis Adams, the advocates of Grant and of Tilden are most positive if not most numerous. The first assert that the nomination of Grant is a necessity that has been forced upon the country by the action of the Southern Democracy; that he is to-day the only man, prominently before the people, of whom the unreconstructed and robellious element have a wholesome dread; that the third term talk is a mere buggaboo to prevent Republicans from selecting the strongest and most reliable candidate within their reach, and that it will neither win in the convention or before the people. reached all the way round from Grant lilden's supporters have an equally d value of air. Indeed it the onice to which him a right to the seat which he has never forfeited, despite all calumny to the con-trary, and that this claim is one which neither the convention or the neonle lorfetted, despite an canoning to the contrary, and that this claim is one which neither the convention or the people will be disposed to repudiate. As between these there are a large number who express individual opinions in favor of individual candidates. Sherman seems to have supplanted Blaine in the affections of a good many in this vicinity, who formerly supported the claims of the Maine Senator. Blaine, however, has still numerous adherents in this vicinity. Bayrard would probably stand second on the Democratic list in most straw votes taken here at this time. Notes of interviews taken by our reporters would show these facts still more clearly, but as we started out to furnish gossip more particularly on local politics, we defer the former until some more convenient occasion.

OUB NEXT CONGRESSMAN. "I don't see anything that is going to preent Ben. Wilson from getting another Democratic nomination for Congress, said an observing Democratic politician

to our reporter "and I don't see anything that need prevent the Republicans that need prevent the Republicans from beating him if they make the proper effort. He will get the nomination simply because men like Alex. Campbell, Good, Gallaher, Jackson and Johnson, who together represent far more strength than Wilson, have not sense enough to unite on one of their number and break up what Mr. Wilson now proposes, shall be a perpetual lease. This fact, however, ought to make it easier to beat Wilson if he is nominated; for the members of the Democracy, who have neither confidence in his political konesty or :eliability, have pretty well made up their minds that the only way to break up his scheme is to beat him at the polls. It will require a man, however, who has the means, address and industry to make a thorough canvass, for Benjamin is as untiring as he is unacrupulous, and if he had not been he would have been submerged long since."

Others thought Goff was the man and that he would take the nomination, if it were tendered him, and make the canvass necessary to win. There were no Greenback entanglements this time worth mentioning, and the prospects for carrying the district were good on account of the disastisfaction of the Democracy. The extra session of Congress disgusted many Democrats, and Wilson was not accentable to lession of Congress disgusted many Dem-ocrats, and Wilson was not acceptable to many in this end of the district: Kaiser William Schultz thought Gen. Fell Dead.—For several days past a daughter of Louis Metzger, carpenter at Hanes, Wilson & Co's, North Wheeling, and who lives at the corner of alley Three and Main street, has been sick with sore throat. Yesterday morning about 9 o'clock she was in the dining room, and asked her mother for a drink of coffee, which was given her, when she walked to the adjoining room and lell to the floor dead. Medical assistance was summoned at once, but of course was of no avail. It is thought the coffee strangled her, as her throat was in avery inflamed and swollen condition.

THE SHERIPPALTY.

comes the sheriffalty of this county, and from present indications the good people of this vicinity will witness a fight for this beside which all previous contests will fade into insignificance. The place is worth about five thousand dollars a year, ordinarily, but by working things close, another \$2,000 per annum can be gotten

ont of it, and this is about the best thing within the gift of the State.

Among the probable candidates mentioned on the Republican side are Mr. Louis Bayha, present Cashier of the German Bank; Col. Parks, of the Elm Grove; F. Johnson, of the Postoffice and, Kaiser William Schulta, of the Eighth ward. The Democratis spoken of in the same connection are: Mr. C. P. Brown, Mayor Sweeney, Councilman Handlan, Charlie Dieters, present Clerk of the Board of Commissioners, and Assessor Arkle, of the city district. Besides these, ex-County Clerk Uncle Robert Woods is spoken of as a possible independent candidate, and there are others who are willing to be entered if the race is made up to their satisfaction. Of these we give current impressions to the following effect: Bayha would run well generally and would carry off a large slice of the German Democratic vote. Parks and Johnson are to the popular, and have friends, in both parties. Schultz says if he can get the full both parties. Schultz says if he can get the full both parties. PROSECUTING ATTORNEY.

For the Prosecuting Attorneyship o this county there is generally a vigorou scramble. The place is worth about \$2,000 per annum and it does not prevent its encumbent from attending to other law busi cumbent from attending to other law business, and occasionally leads to other lucrative practice. It is considered a good school also for a young practitioner, and accordingly the young lawyers go for it like for hounds after compone. It is generally believed that Prosecutor Jordan will get another nomination, although it will be contested by Counsellors O'Pendleton and O'Keefe, and possibly Fergusson and some other Democratic numbers of the bar. On the Republican side Gen. A. B. Caldwell is an active candidate, and W. J. W. Cowden and others are mentioned as aspirants.

County or Circuit Clerk's offices to fill this year. There will probably be about the sual contest for Democratic nomina tions for the Assessorships, and the chances are that Depnty Sheriff Phillips and June Curtis will get them. We have heard of no Republican aspirants for these places. Among Republicans mentioned as possible candidates for the Board of Commissioners, are Capt. Senseny, in Washington district, and John Armstrong, the prevent incumbent from Madison. In Clay, if John Frew, is not renominated, Joe Speidel will probably be run. In Union, Jacob Morris is talked of, and B. F. Caldwell is mentioned as an available man in Centre. Fred. Goodfellow may be struck by the lightning in Webster, and if Gen. Schultz is not elected Sheriff he will probably be retained in his present place. For the country districts we have no Republican advices, and as the field is too purely speculative to be practical we refrain from mentioning Democratic possibilities. tions for the Assessorships, and the chan ulative to be practical we refrain from mentioning Democratic possibilities.

In conclusion, we may add that if any ody who is a candidate and who ought to have been mentioned has been left out, it is have been mentioned has been left out, it is the fault of the careless compositor, and the mistake can be rectified by the injured party at regular advertising rates. In a Directory like this it is impossible to avoid some few errors, but if we have made a single heart beat more happily or lifted au ounce of sorrow from one troubled breast, we shall feel that our labors have not been in vain

LABOR AND SOCIALISM.—A very slim crowd assembled at the Guards Hose House on Saturday night to hear the reading of the platform, and to attend to other business. The meeting was preaded over by Mr. S. A. Kepner, Chairman, who, in calling it to order, took occasion to review the order, its origin, progress, and ultimate condition. At the conclusion of Mr. Kepner's speech Mr. J. H. McFall offered the following resolution: Resolved, That the Labor Reform Association of Wheeling emphatically disavow any affiliation, or even the slightest sympathy for the party styling themselves Socialists, and we hereby denounce said organization as an enemy of civilization This gave rise to a long and tedious discussion, in which Mr. S. H. Goshorn, a Socialist, read a platform of the party, and at great length demonstrated the good the Socialists had done and were to do.

Mr. Kepner, in reply, pointed out the litters of the party Socialists and done and were to do.

THE STATE TICKET.

Concerning the State ticket there is but one candidate talked of on the Republican side to any extent in this city, and that is Dr. T. H. Logan. His record in the last Legislature did a great deal to establish and widen his already good reputation for the successwhey deserved. Other desultory speaking took place and solitive, and the impression the following resolution was offered and

adopted:

Resolved, That all the workingmen in the

Resolved, That all the workingmen in the city be requested to form themselves into ward-clubs, and meet regularly for the purpose of agilating and strengthening their cause.

Mr. Ed. Robertson was in favor of a full ticket being put into the field at the approaching campaign, composed of their town representatives, and that no outside alliances be formed.

At the conclusion of his remarks Mr. Robertson made a motion comprehending his ideas on the subject. This motion provoked some discussion as to the expediency and propriety, but was finally adopted.

adopted.

Mr. A. A. Rock, of St. Albans, Kanawha county, had written a letter to a member of the party in this city, in which he encouraged the members of this city to persevere in what they had undertaken, and they would come out all right. He assurded them that Kanawha county was doing lear duty in the matter. Her duty in the matter.
On motion the meeting adjourned to meet at Hope Hose House Hall, at the call of the President.

LEGISLATIVE TICKET.

In the matter of the selection of a legislative ticket the expression is general that at least so long as the Capital remains here this county ought to be able to get a strong delegation. Judging from popular expressions, Dr. Logan and Gov. Jacob could be re-elected without much difficulty. Capt. Wilson, W. P. Hubbard, John Oesterling, Sprigg Jacob, Capt. Dovener and Fred. Goodfellow are also talked of, and out of this material and other that is available a good selection might be made.

THE SHERIPPALTY.

Next in the line of remark, and first in the estimation of a good many candidates, comes the sheriffalty of this county, and controlled the controlled the controlled to the premises of Mr. J. R.
